Product description

The Infina UX collection stands out through its simplicity and class: a centre pole parasol without a heavy structure. This parasol is extremely flexible thanks to its mobile parasol base and can be easily moved for maximum shade. A charming city garden, a hip bar, a sleek pool house or a trendy restaurant: it's all possible.

Mounting options

Umbrosa offers 3 different ways to install your umbrella.

1. Direct mounting on the ground
2. Mounting in a soft surface with a concrete anchorage
3. Mounting on a mobile tile base

1. Direct mounting on the ground, the **round support** is included in the package. You need it to install the pole on a hard surface (concrete - wood) or on an Umbrosa base.

2. Installation in a soft surface
You need a **concrete anchorage** to install the pole in a "soft" surface pouring concrete. To use in combination with a round support.

3. Mounting on a mobile flat medium base
Mobile flat medium base with wheelset:
- Laquered Grey Beige (RAL 1019)
- Cover base: Thermo Poplar*

*Our UX wooden covers are made of thermotreated poplar wood that has not been treated for color stability. The wood will weather with outdoor exposure and turn grey.

Made in Belgium

As a 100% Belgian organisation, Umbrosa has been passionate about how to create shade in a unique and stylish way for many years. With the whole team, we share our -sometimes crazy- ideas and we are full of energy and plans for the years to come. Our roots, our cradle is in Belgium. We choose to organise the entire process -from development to assembly and shipping- from our home base in Roeselare. The parasol canopies are stitched one by one in our sewing department. You can take this quite literally because in our work place we resolutely go for pure craftsmanship, passion and perfection! Before our creation reaches you, it has passed through many hands and past the precise eyes of our quality control. This already starts with our seamstresses, who check the fabrics and subsequently transform them to the most beautiful and perfect parasol canopies and shade sails following a clearly defined procedure. The manual assembly of your parasol is our final physical check to guarantee this perfection.
