Product title

Nano UX Architecture cantilever umbrella | Square 2,5 m | Architecture

Name collection: Nano UX

Format: 2,5 m

Color canopy: Colorum Marble

Color frame: Papyrus White (RAL 9018)

Product description

The Nano UX collection consist of two compact design fan parasols for smaller terraces. The canopy cannot be adjusted in height, but can be tilted sideways to create optimal shading. The parasol is available in two versions: Full Black and Architecture. The Nano UX Full Black has a black frame and a black Colorum canopy, while the Nano UX Architecture has a Papyrus White lacquered frame and a Colorum Marble canopy.

Models

- 2,5 m (90°) Architecture | Fabric: Colorum Marble
Frame: Papyrus White (RAL 9018)
- 2,5 m (90°) Full Black | Fabric: Colorum Black
Frame: Black (RAL 9005)

Mounting options

Umbrosa offers 3 different ways to install your umbrella.

1. Direct mounting on the ground
2. Mounting in a soft surface with a concrete anchorage
3. Mounting on a mobile tile base

1. Direct mounting on the ground

The **round support** (straight 90°) is included in the package.

You need it to install the pole on a hard surface (concrete - wood) or on an Umbrosa base.

2. Installation in a soft surface

You need a **concrete anchorage** to install the pole in a "soft" surface pouring concrete. To use in combination with a round support.

3. Mounting on a mobile tile base

Medium tile base with wheelset:

- cover available in Black | Papyrus White
- frame in Black | Papyrus White
- tiles are not included

TILES

The bases for this collection are tile bases, that need to be filled with concrete tiles. These are never included.

Tile requirements:

Dimensions: 40x40x4 cm

Materials

Frame:

Aluminum powder coated (for more information check out our technical data sheet)

Canopy:

Colorum fabric - solution dyed acrylic fabric (100%)

- colorum 260gr/m²
- hand wash 30°C
- water repellent
- color rating 7/8 (max=8)

Color canopy

Colorum:

Black

Marble

Color frame

Black

Papyrus
White

Product weight	Base: 17 kg (without tiles)
Packaged weight	Base: 18 kg

Made in Belgium

As a 100% Belgian organisation, Umbrosa has been passionate about how to create shade in a unique and stylish way for many years. With the whole team, we share our -sometimes crazy- ideas and we are full of energy and plans for the years to come. Our roots, our cradle is in Belgium. We choose to organise the entire process -from development to assembly and shipping- from our home base in Roeselare. The parasol canopies are stitched one by one in our sewing department. You can take this quite literally because in our work place we resolutely go for pure craftsmanship, passion and perfection! Before our creation reaches you, it has passed through many hands and past the precise eyes of our quality control. This already starts with our seamstresses, who check the fabrics and subsequently transform them to the most beautiful and perfect parasol canopies and shade sails following a clearly defined procedure. The manual assembly of your parasol is our final physical check to guarantee this perfection.
