

## Umbrosa Guideline | Eclipsium UX

---

### Who is Umbrosa?

Unique Shade Design, there is no better way to describe where Umbrosa stands for. Umbrosa offers stylish and sustainable shade solutions for the residential and the project market. All products are developed and produced in Belgium. The range consists of a standard collection, UX collection and umbrella bases.

## Product title

Eclisum UX Full Black | Round 3 m | Black

Name collection: Eclisum UX  
Format: round 3 m  
Color canopy: Colorum Black  
Color frame: Black (RAL 9005)

## Product description

Round, round, get around...

A parasol doesn't get any rounder than the Eclisum UX by Umbrosa. The new Eclisum UX may look the same as its predecessor, but you'd be surprised. The parasol has been reinforced on several levels: wind resistance, stronger glass fibres and better rotation axis. The cleaner design with fewer visible bolts and a round canopy that is completely flat, results in an iconic parasol that won't leave you untouched. You hate it or you love it.

## Models

- 3 m (90°) Full Black | Fabric: Colorum Black  
Frame: Black (RAL 9005)
- 3 m (90°) Architecture | Fabric: Colorum Marble  
Frame: Papyrus White (RAL 9018)

## Mounting options

Umbrosa offers 3 different ways to install your umbrella.

1. Direct mounting on the ground
2. Mounting in a soft surface with a concrete anchorage
3. Mounting on a mobile tile base

### 1. Direct mounting on the ground

The **round rotation support** (straight 90°) is included in the package. You need it to install the pole on a hard surface (concrete - wood) or on an Umbrosa base.

### 2. Installation in a soft surface

You need a **concrete anchorage** to install the pole in a "soft" surface pouring concrete. To use in combination with a round rotation support.

### 3. Mounting on a mobile tile base

#### **UX tile base with wheelset:**

- cover available in Black | Papyrus White
- frame in Black | Papyrus White
- tiles are not included

#### TILES

The bases for this collection are tile bases, that need to be filled with concrete tiles. These are never included.

Tile requirements:

Dimensions: 40x40x4 cm

Total height to fill up: min. 3,8 cm - maximum 4 cm

You need 12 tiles.

## Materials

### Frame:

Aluminum powder coated (for more information check out our technical data sheet)

### Canopy:

Colorum fabric - solution dyed acrylic fabric (100%)

- colorum 260gr/m<sup>2</sup>
- hand wash 30°C
- water repellent
- color rating 7/8 (max=8)

## Packaged dimensions

Frame: 247x53x39 cm  
Base Architecture & Black: 90x90x16 cm

## Product weight

Base: 32 kg (without tiles)

## Packaged weight

Base: 33 kg lbs

## Made in Belgium

As a 100% Belgian organisation, Umbrosa has been passionate about how to create shade in a unique and stylish way for many years. With the whole team, we share our -sometimes crazy- ideas and we are full of energy and plans for the years to come. Our roots, our cradle is in Belgium. We choose to organise the entire process -from development to assembly and shipping- from our home base in Roeselare. The parasol canopies are stitched one by one in our sewing department. You can take this quite literally because in our work place we resolutely go for pure craftsmanship, passion and perfection! Before our creation reaches you, it has passed through many hands and past the precise eyes of our quality control. This already starts with our seamstresses, who check the fabrics and subsequently transform them to the most beautiful and perfect parasol canopies and shade sails following a clearly defined procedure. The manual assembly of your parasol is our final physical check to guarantee this perfection.
