Product title

Icarus Design parasol forward 80° | 3 m | Natural | Alu frame

Name collection: Icarus
Format: 3 m
Color canopy: Natural (white)
Color frame: Aluminum

Product description

With its Icarus, Umbrosa kills two birds with one stone. Inspired by nature, we designed an umbrella that at the same time can be used as a windscreen. The Icarus embraces and protects. It creates the safe security of a cocoon, while you can enjoy the beautiful weather to the fullest.

Frame is available in 1 finish: aluminum

-> Price includes: frame + canopy + protection cover + round rotation support.

USP's / Features

- Extremely wind resistant parasol
- Large shaded area thanks to 360° rotation and height adjustment of the parasol
- Easy to use and ergonomical
- Cosy cocoon

Model

- 3 m Icarus forward (80°) Alu

Mounting options

Umbrosa offers 3 different ways to install your umbrella.

1. Direct mounting on the ground
2. Mounting in a soft surface with a concrete anchorage
3. Mounting on a mobile tile base

1. Direct mounting on the ground

The **round rotation support** (forward 80°) is included in the package. You need it to install the pole on a hard surface (concrete - wood) or on an Umbrosa base.

2. Installation in a soft surface

You need a **concrete anchorage** to install the pole in a "soft" surface pouring concrete. To use in combination with a round rotation support.

3. **Mounting on a mobile tile base**

Tile base with wheelset:

- cover available Alu
- frame in galvanized steel
- tiles are not included

TILES

The bases for this collection are tile bases, that need to be filled with concrete tiles. These are never included.

Tile requirements:

Dimensions: 40x40x4 cm

Total height to fill up: min. 3,8 cm - maximum 4 cm

You need 12 tiles.

Materials

Frame:

Galvanized steel | naturally anodized aluminum (for more information check out our technical data sheet)

Canopy:

Solidum or Colorum fabric - solution dyed acrylic fabric (100%)

- colorum 260gr/m²

- solidum 250gr/m²

- hand wash 30°C

- water repellent

- color rating 7/8 (max=8)

Base: 18 kg

Made in Belgium

As a 100% Belgian organisation, Umbrosa has been passionate about how to create shade in a unique and stylish way for many years. With the whole team, we share our -sometimes crazy- ideas and we are full of energy and plans for the years to come. Our roots, our cradle is in Belgium. We choose to organise the entire process -from development to assembly and shipping- from our home base in Roeselare. The parasol canopies are stitched one by one in our sewing department. You can take this quite literally because in our work place we resolutely go for pure craftsmanship, passion and perfection! Before our creation reaches you, it has passed through many hands and past the precise eyes of our quality control. This already starts with our seamstresses, who check the fabrics and subsequently transform them to the most beautiful and perfect parasol canopies and shade sails following a clearly defined procedure. The manual assembly of your parasol is our final physical check to guarantee this perfection.
