Product title

Paraflex UX Full Black wall mounted umbrella | Square 2,3 m | Colorum Black | Neo Arm

Name collection: Paraflex UX wall

Format: 2,3 m

Color canopy: Colorum Black

Color frame: Black (RAL 9005)

Product description

Umbrosa launched the Paraflex collection 15 years ago. The first wallmount parasol was developed from a purely practical point of view: to lose as little space as possible and to ensure optimal wind resistance. Meanwhile, the Paraflex parasol has earned its place both in the residential market and in hospitality. In order to even better meet the needs of today's consumers, Umbrosa has decided to launch a Paraflex UX Full Black, so that the parasol can be easily combined with black windows, furniture, railings, etc.

Packaged dimensions

Neo holder: 108x16x18 cm

Product weight

Neo holder: 5 kg
Umbrella: 4,06 kg

Packaged weight

Neo holder: 5,31 kg

Made in Belgium

As a 100% Belgian organisation, Umbrosa has been passionate about how to create shade in a unique and stylish way for many years. With the whole team, we share our -sometimes crazy- ideas and we are full of energy and plans for the years to come. Our roots, our cradle is in Belgium. We choose to organise the entire process -from development to assembly and shipping- from our home base in Roeselare. The parasol canopies are stitched one by one in our sewing department. You can take this quite literally because in our work place we resolutely go for pure craftsmanship, passion and perfection! Before our creation reaches you, it has passed through many hands and past the precise eyes of our quality control. This already starts with our seamstresses, who check the fabrics and subsequently transform them to the most beautiful and perfect parasol canopies and shade sails following a clearly defined procedure. The manual assembly of your parasol is our final physical check to guarantee this perfection.
